

AP Test Data Comparison: District Level Counts and Percentages of Students Taking AP

This report contains personally identifiable information or information that when combined with other reports and/or information a student's information in this report cannot be disclosed to any other person, except for employees of a student's school or school system who must have a valid educational purpose for the disclosure.

NA represents no data available. ~ represents data suppressed due to small counts.

Values represent unduplicated counts of students. For students taking more than one test, the maximum score earned was used.

AP Test Data Comparison: District Level Counts and Percentages of AP Exams Taken by Sponsor

This report contains personally identifiable information or information that when combined with other reports and/or information a student's information in this report cannot be disclosed to any other person, except for employees of a student's school or school system who must have a valid educational purpose.

NA represents no data available. ~ represents data suppressed due to small counts.

Values represent unduplicated counts of students. For students taking more than one test, the maximum score earned was used.

AP Test Data Comparison: Site Level Counts and Percentages of AP Exams Taken by S

This report contains personally identifiable information or information that when combined with other reports and/or information in this report cannot be disclosed to any other person, except for employees of a student's school or school system

NA represents no data available. ~ represents data suppressed due to small counts.

Students taking more than one test are represented more than once in these totals.
