Katrina Jackson keeps calling and I want to get some clarification about what you told her before I call back.

We just received a call from the AP that they are running a story about a new autopsy done on Ronald Greene that purports to be "commissioned by the FBI" with different findings from the original autopsy. We don't want to comment on the autopsy without seeing it, but it appears they are trying to bring the Governor into the story. Can you give me a ring when you have a moment to discuss this? Thanks.

I know both of you are sick of hearing from me regarding state police. Trust me, I'm equally as sick of the accusations I'm getting in my community about my constant decision not to throw JBE under the bus. At this point, it's hard to believe that all of this shit is going on without a blessing from the 4th floor. I can't keep ignoring the issue BC I like the Governor this isn't my last political office. I'm

I'm not sure what I'm doing outside of venting but many members of the LLBC are equally as sick and tired of being criticized in their districts. I'm calling a meeting to discuss the issue and will follow up with our next steps. Waiting on the feds is no longer an option in my opinion.

We are looking at Wednesday afternoon to meet with the family in Baton Rouge. Would that work for you? I believe Col. Reeves can arrange for a helicopter to pick you up and bring you back.

Belton Issues Statement on Greene Homicide

05/20/2021

May 19, 2021

It is of the utmost importance that the Ronald Greene family and our community, as a whole, be provided complete and truthful answers about what happened to him.

For our justice system to properly function, citizens must have trust and confidence in the justice process. To ensure an independent investigation into the death of Mr. Greene, on the day I received the report from the Louisiana State Police, I asked the United States Department of Justice to conduct an independent review of the circumstances surrounding his death, including whether any criminal or civil rights violations occurred.

To date, the federal investigation is ongoing. Ethically, I am prevented from making any extrajudicial comments while this matter is under investigation. Furthermore, the United States Attorney for the Western District of Louisiana has asked that I make no comments regarding the merits and investigation of the case. My office will await the conclusion of the federal investigation before making any further comment or decisions in this case.

FYI: the Ronald Greene family and their attorneys would like to meet with me on this Thursday. If this causes any issues with you then I will reconsider. Out of respect, I wanted to make sure you knew about it. Praying for all parties involved, the State of Louisiana and our Country. Please let the Governor know. Thanks
John Belton

Not at all. My understanding is that they are requesting a meeting with the Governor as well. I have not heard anything official yet.
