Ronald Greene Statement From Attorney General Jeff Landry

BATON ROUGE, LA – Attorney General Jeff Landry issued the following statement over the ongoing concerns regarding the death of Ronald Greene and the jurisdiction in this criminal matter:

"I have heard the concerns raised over the death of Ronald Greene. His family has my condolences and prayers.

The event captured on video took place two years ago and the Louisiana State Police – which reports to the Governor – has had this evidence, or the ability to access this evidence, since that time.

It is important to note that the criminal matter can be broken down into the investigation, state prosecution, and federal prosecution. Our office has no involvement in any of these as they are being handled by the Louisiana State Police, the Federal Bureau of Investigation, the Third Judicial District Attorney's Office, and the United States Department of Justice.

It is also critical to note that the Constitution of the State of Louisiana does not give the Attorney General original jurisdiction in criminal cases or authority to take a prosecution from a district attorney without cause of recusal by the DA. This criminal matter has been ongoing for two years with the involvement of the local District Attorney, and there is no legal cause for recusal.

I will continue to closely monitor the situation; and I trust DA Belton and the Biden DOJ will follow the facts and seek justice."

What happened was tragic, and I cannot imagine the immense pain of losing a child in such a terrible way. Nothing can make up for the disturbing treatment he received at the hands of some state troopers. I pledged to Ms. Mona Hardin that Louisiana State Police is cooperating fully with the Union Parish District Attorney and the United States Department of Justice in their investigations and that under the leadership of a new state police superintendent, change has already started at the agency.

I expect every trooper who wears a Louisiana State Police badge to act professionally under every circumstance, to seek to de-escalate violent or tense situations and to treat all people they encounter respectfully and justly. Law enforcement officers must hold themselves to the highest standards at all times. I certainly do. The officers seen on the body cam footage of Mr. Greene's arrest do not represent what we aspire to in the state of Louisiana. Their actions were deeply unprofessional and incredibly disturbing. I am disappointed in them and in any officer who stood by and did not intervene during the arrest.

I am praying that ongoing investigations, which the state is cooperating with, will bring Mr. Greene's family a measure of peace and justice."

Have y'all pulled the nomination of Mike Noel for Gaming Control Board chairman?

He informed the Governor this morning that he will be stepping down, effective tomorrow. The Governor is appreciative of his service at the Gaming Control Board and will work to find a suitable replacement for Mr. Noel.

What was the reason given? Is there an official resignation letter?

Wed, Jun 9, 11:53 AM

Was the governor told Noel would have trouble getting

Wed, Jun 9, 11:53 AM

Was the governor told Noel would have trouble getting confirmation because of his background with Louisiana State Police and his position with LSP during the Ronald Greene incident?

I have asked for the resignation letter. Will let you know.

Thx. Any response to the other questions?

Don't have anything for you there.
